

مقالات مرکز تحقیقات فیزیوتراپی ۲۰۲۴

1	The role of exercise therapy in reducing respiratory symptoms in patients with COVID-19: a systematic review	ISI
2	application of Tecar therapy and low-level laser therapy on the neurological symptoms of type 2 diabetic patients with peripheral neuropathy of lower limbs	ISI
3	Comparison of Tecar Therapy and Low-Level Laser Therapy Separately and Simultaneously on Clinical Symptoms and Health-Related Quality of Life in Individuals with Type 2 Diabetes: A 3-Month Follow-up Study	ISI
4	Kinetic changes of gait initiation in individuals with chronic ankle instability: A systematic review	ISI
5	The Effect of Physiotherapy on Erectile Dysfunction Secondary to Prostatic Adenectomy: A Randomized Control Trial Study	ISI
6	Response to Letter to the Editor: The effect of Tecar therapy on neurological disorders and nerve conduction velocity of lower limbs in peripheral neuropathy of type 2 diabetic patients: A six-week follow-up study	ISI
7	Studying the Effect of Cross-education on the Quadriceps Atherogenic Muscle Inhibition in Women With Unilateral Knee Osteoarthritis	ISI
8	Postural adjustment and muscle activity during each phase of gait initiation in chronic ankle instability: an observational study	ISI
9	A comparative evaluation of aluminum chloride hexahydrate gel iontophoresis versus tap water iontophoresis in people with primary palmar hyperhidrosis: A randomised clinical trial	ISI
10	The Effect of Exercise Therapy on Muscular Strength, Bone Mineral Density and Quality of Life in Postmenopausal Women With Osteoporosis: A Systematic Review	ISI
11	Assessing the efficacy of manual reduction and novel traction techniques for distal radius fractures: A randomized controlled trial	ISI

12	Prevalence and predictors of musculoskeletal injuries among gym members in Bangladesh: A nationwide cross-sectional study	ISI
13	Effect of strengthening exercises in individuals with patellofemoral pain syndrome: a randomised controlled trial	ISI
14	Comparison of a 30-year trend of incidence, prevalence, and DALY due to low back pain in Iran with Low- and High-SDI countries; Based on GBD study 2019 Data	ISI
15	Surgical complications of bariatric surgery among patients with rheumatic diseases	ISI
16	Effect of visual biofeedback on fine motor function and activity daily of life in stroke patients: A pilot study	ISI
17	Investigating the effect of pre-transplant thrombocytopenia and anemia on the engraftment and long-term survival in multiple myeloma patients	ISI
18	Evaluation of a New Patellar Tendon Bearing Brace With Offloading Monitoring and Adjustability: A Pilot Study	ISI
19	Comparison of Physical Therapy and Orthosis on Clinical Outcomes in Patients with Medial Knee Osteoarthritis	ISI
20	Relationship Between Psychological and Clinical Outcomes of 12-Week Therapeutic Exercises Following Total Knee Arthroplasty	ISI
21	Effect of Biofeedback Training of Hip Muscles on Pain, Muscle Strength and Their Electromyography in Patellofemoral Pain Syndrome	ISI
22	Ultrasonography and Electromyography Activity of Abdominal Muscles in Different Abdominal Exercises: A Systematic Review	ISI
23	Investigating Combined Balance Training and Transcranial Direct Current Stimulation for the Recovery of Postural Control Following Chronic Stroke: A Study Protocol	ISI
24	Prognostic Factors for Recurrence And Survival of Patients with Breast Cancer Using A Multi-state Model	ISI
25	Atraumatic hip fracture due to stiff person syndrome: Case report and literature review	ISI

26	Effect of Interior Architecture of Rehabilitation Centers on the Outcome of Occupational Therapy for Children With Autism Spectrum Disorders	ISI
27	Trigger Point Dry Needling to Reduce Pain and Improve Function and Postural Control in People With Ankle Sprain: A Systematic Review and Meta-Analysis	ISI
28	Effects of foot orthoses on running kinetics and kinematics: A systematic review and meta-analysis	ISI
29	Effects of 3D-printed ankle-foot orthoses on gait: a systematic review	ISI
30	Comparing the effects of cerebellar and prefrontal anodal transcranial direct current stimulation concurrent with postural training on balance and fatigue in patients with multiple sclerosis: a double-blind, randomized, sham-controlled trial	ISI
31	Comparison of the effect of separate and simultaneous application of Tecar therapy and low-level laser therapy on the neurological symptoms of type 2 diabetic patients with peripheral neuropathy of lower limbs	ISI
32	Catastrophic case of the total knee arthroplasty dislocation: A case report	ISI
33	Effects of dry needling on spasticity and motor function in paralympic athletes: a study protocol for a randomised controlled trial	ISI
34	Utilizing Sertoli Cell Transplantation as a Therapeutic Technique for the Management of Neurodegenerative Diseases	Pubmed
35	The Effect of Balance-Based Interventions on Cognitive Functions of the Healthy and MCI Elderly: A Systematic Review and Meta-analysis	Pubmed
36	Management of humeral shaft nonunion using the WALANT technique	Pubmed
37	The Effect of Single-Session Stimulating Massage on the Knee Joint Position Sense in Healthy Older Adult Men: A Randomized Crossover Trial	Pubmed
38	Design and Evaluation of a Patellar Tendon-Bearing Brace with Off-Loading Mechanism on Tibia	Pubmed
